Implementation phase

During the implementation phase was the construction of information-functional model of units activity carried out, the description and optimization of processes, subject to automation, were prepared. Due to the opportunities of information-analytical system "Univeris", the recognition certificate, listing all the data of the FEQ holder, can be formed automatically.

Development of the Center of Recognition

- ✔ With a view to training institutions in the field of recognition of foreign education, the first in the South Ural training seminar on the topic "Theoretical and practical aspects of recognition of foreign education and qualifications in the Russian Federation" took place.

Recognition

- is a complex multilateral process of establishing the academic, professional or other rights, which is characterized by borrowing methods of scientific knowledge and has an interdisciplinary character. Recognition is not conceivable without knowledge of law, linguistics, psychology, cross-cultural communication

Intercultural communication

- ✓ Experts face the intercultural communication difficulties, providing obstacles to effective collaboration, almost every day.
- ✓ First of all, the language barrier arising between the expert and the owner of FEQ leads to excessive and long-term explanations.
- ✓ Therefore, the University prepared instruction booklets for students in English, Chinese and Arabic versions with the rules of legalization and translation of documents for usage in the Russian Federation.
